

Exterior Front Appearance Guideline

In accordance with the mission statement of the Board of Directors, this is a guideline for the members to consider when making major changes to the front of their homes.

1. Any major Exterior change to the property that may effect the appearance of the front of the home (i.e. paint color, storage building or a patio roof) precluding any landscaping or furnishing of the front porch should not result in a reduction of property values for the surrounding neighbors.
2. The exterior color scheme suggested is in the Earth Tone color palette.
3. *Earth tone* - a color scheme that draws from a color palette of browns, tans, greys, greens, oranges, whites, and some reds. The colors in an earth tone scheme are muted and flat in an emulation of the natural colors found in soil, moss, trees and rocks. Many earth tones originate from clay earth pigments, such as umber, ochre, and sienna is generally the color scheme for the neighborhood. A partial example is attached which shows the wide range of this color scheme.

Recorded in the Book of Minutes as a guide to all members:
